(incorporated in the laws of Switzerland)

WARRANT ANNOUNCEMENT

Proposed Issue of 50 million European Style Index Put Warrants relating to the Hang Seng Index

Introduction

Bank Vontobel AG (the "**Issuer**") wishes to announce the launch of the proposed issuance of 50 million European Style Index Put Warrants (the "**Warrants**") relating to the Hang Seng Index (the "**Index**"). Vontobel Limited has been appointed as the designated market-maker (the "**Designated Market Maker**") and The Central Depository (Pte) Limited has been appointed as the warrant agent (the "**Warrant Agent**") for the Warrants.

The Warrants are cash-settled warrants which entitle a warrant holder to be paid a cash settlement amount (if positive) (the "**Cash Settlement Amount**") in accordance with the terms and conditions of the Warrants.

Further details of the Warrants are set out below.

Entitlement/Exercise of the Warrants

The issue price of each Warrant is SGD 0.40. Every 1000 Warrants will initially relate to 1 index unit.

The Warrants have a Strike Level of HKD 30688.00 ("**Strike Level**") and may only be exercised on 27 April 2018 (the "**Expiry Date**").

Cash Settlement Amount

Warrant holders shall not be required to deliver an exercise notice. Exercise of Warrants shall be determined by whether the Cash Settlement Amount (less any Exercise Expenses) is positive. If the Cash Settlement Amount (less any Exercise Expenses) is positive, all Warrants shall be deemed to have been automatically exercised at 12:00 noon (Singapore time) on the Expiry Date (or if the Valuation Date falls after the Expiry Date, the Expiry Date shall be the Business Day following the Valuation Date). The Cash Settlement Amount less the Exercise Expenses in respect of the Warrants

shall be paid in the manner set out in the terms and conditions of the Warrants. In the event the Cash Settlement Amount (less any Exercise Expenses) is zero or negative, all Warrants shall be deemed to have expired at 12:00 noon (Singapore time) on the Expiry Date (or if the Valuation Date falls after the Expiry Date, the Expiry Date shall be the Business Day following the Valuation Date) and warrant holders shall not be entitled to receive any payment from the Issuer in respect of the Warrants.

The Cash Settlement Amount for every Warrant exercised is calculated as follows:

$$[(\text{Strike Level} - \text{Closing Level}) \times \text{Conversion Ratio}] \times \text{Exchange Rate}$$

Where

Closing Level: The final settlement price for settling the Hang Seng Index April 2018 Futures Contract determined pursuant to Regulation 012 of the Regulations for trading Stock Index Futures and the Contract Specifications for Hang Seng Index Futures Contracts (as amended from time to time) of the Hong Kong Futures Exchange Limited .

Exchange Rate: The prevailing rate of exchange between the Hong Kong dollar to Singapore dollar as at 5:00 p.m. (Singapore time) on the Valuation Date as shown on Reuters provided that if the Reuters service ceases to display such information, such page as displays such information on such other services as may be selected by the Issuer.

Valuation Date: 27 April 2018 or if such day is not the day on which the Hang Seng Index April 2018 Futures Contract expires on the Hong Kong Futures Exchange Limited , the day on which the Hang Seng Index April 2018 Futures Contract will expire on the Hong Kong Futures Exchange Limited or its successor or assign.

The Conversion Ratio (expressed as the number of index units to which one Warrant relates) is 0.001. The Strike Level is based on the reference level of HKD 30100.00 used for the pricing of the Warrants. The Warrants carry a premium of 5.73% and a gearing of 13.02 times.

Listing and Trading of the Warrants

An application will be made to the Singapore Exchange Securities Trading Limited (the "**SGX-ST**") for the listing of and quotation for the Warrants. The Warrants, when issued, will be represented by a global warrant certificate to be deposited with The Central Depository (Pte) Limited ("**CDP**"). The Warrants will be traded on the SGX-ST through the book-entry scripless settlement system of CDP. It is expected that dealings in the Warrants will commence on or about 08 December 2017 on the SGX-ST.

The Warrants will be traded in Singapore dollars on the SGX-ST.

The Designated Market Maker

The Designated Market Maker will provide competitive buy and sell quotes ("**Quotations**") for the Warrants continuously during the trading hours of the SGX-ST (with the spread between the buy and sell quotes not exceeding 10 times the minimum permitted price movement in the Warrants in accordance with the rules of the SGX-ST or SGD 0.20, whichever is the greater). The minimum quantity of Warrants to which the Quotations will apply is 10,000 Warrants.

Quotations may not be provided by the Designated Market Maker in the following circumstances:

- (a) during the pre-market opening and five minutes following the opening of the SGX-ST on any trading day;
- (b) if the Warrant is valueless (where the Issuer's bid price is below the minimum bid size for such

securities as prescribed by the SGX-ST), the Designated Market Maker will not provide the bid price. In such an instance, the Designated Market Maker will provide the offer price only;

- (c) when trading in the shares or securities relating to or constituting the Index is suspended or limited in a material way for any reason, for the avoidance of doubt, the Designated Market Maker is not obliged to provide quotations for the Warrants at any time when the shares or securities relating to or constituting the Index are not traded for any reason;
- (d) when trading in the Warrants is suspended or limited in a material way for any reason;
- (e) market disruption events, including, without limitation, any suspension of or limitation imposed on trading (including but not limited to unforeseen circumstances such as by reason of movements in price exceeding limits permitted by the SGX-ST or any act of God, war, riot, public disorder, explosion, terrorism or otherwise) in shares or securities relating to or constituting the Index, options or futures relating to the Index on any options or futures exchanges or options or futures generally on any options and/or futures exchanges on which options relating to the Index are traded;
- (f) when the Issuer or Designated Market Maker faces technical problems affecting the ability of the Designated Market Maker to provide the bid and offer prices;
- (g) when the ability of the Issuer to source a hedge or unwind an existing hedge, as determined by the Issuer in good faith, is materially affected by the prevailing market conditions. The Issuer will inform the SGX-ST of its inability to do so as soon as practicable;
- (h) in cases where the Issuer has no Warrants to sell, the Designated Market Maker will only provide the bid price. Warrants held by Issuer or any of Issuer's affiliates in a fiduciary or agency capacity are not Warrants available for market making;
- (i) when the stock market experiences exceptional price movements and volatility; and
- (j) when it is a public holiday in Singapore and/or Hong Kong and/or the SGX-ST and/or the The Stock Exchange of Hong Kong Ltd. are not open for dealings.

The last trading day on which the Designated Market Maker will provide competitive Quotations for the Warrants would be the fifth Business Day immediately preceding the Expiry Date.

Risk Factors

The price of the Warrants may fall in value as rapidly as it may rise and Warrant holders may sustain a total loss of their investment. The risk of losing all or any part of the purchase price of a Warrant upon the expiry of the Warrants means that, in order to recover and realise a return on investment, investors in Warrants must generally anticipate correctly the direction, timing and magnitude of any change in the units of the underlying Index. Changes in the price of the level of the underlying Index can be unpredictable, sudden and large and such changes may result in the index moving in a direction which will negatively impact upon the return on an investment. In the case of Warrants relating to a share Index, certain events relating to such units of the Index or the Index components may cause adverse movements in the value and level of the underlying Index as a result of which, the Warrant holders may, in certain circumstances, sustain a total loss of their investment if the Closing Level of the underlying Index on the valuation date exceeds or is equal to the exercise level.

- (j) when it is a public holiday in Singapore and/or Hong Kong and/or the SGX-ST and/or the HKEx are not open for dealings.

D. Product Suitability

WHO IS THIS PRODUCT SUITABLE FOR?

- This product is only suitable for investors who believe that the index level of the Index will decrease and are seeking a short term leveraged exposure to the Index. You should consider carefully whether the Warrants are suitable for you in light of your experience, objectives, financial position and other relevant circumstances. Warrants are not suitable for inexperienced investors.

Key Product Features

Further Information

WHAT ARE YOU INVESTING IN?

- You are investing in cash-settled put warrants that allow you to take advantage of any decrease in the price level of the underlying reference asset, which is the Hang Seng Index.

Information relating to the Index may be obtained at HKEx's website at www.hkex.com.hk.

Calculation of Cash Settlement Amount

The Cash Settlement Amount, if positive, in respect of each Warrant will be paid in the Settlement Currency (subject as provided otherwise in the Conditions) calculated as follows:

$[(\text{Strike Level} - \text{Closing Level}) \times \text{Conversion Ratio}] \times \text{Exchange Rate}$

WHAT WOULD YOU GAIN OR LOSE IN DIFFERENT SITUATIONS?

- Best case scenario:**
The index level of the Index decreases substantially resulting in a significant increase in the price of the Warrants. You would then sell the Warrants and realise a profit. The DMM is required to provide liquidity in the Warrants to ensure that there will generally be a market price available for the purchase and sale of the Warrants.
- Worst case scenario:**
If you buy the Warrants and the index level of the Index increases sharply. If you have not sold the Warrants, you will lose your entire investment.

E. Key Risks

Further Information

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

- Investment in the Warrants involves substantial risks, including market risk, liquidity risk, currency risk and risk that the Issuer will be unable to satisfy its obligations under the Warrants. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Warrants.

Please refer to the "Risk Factors" section set out in the Listing Documents for a complete list of risks and details of the risks.

PLEASE REFER TO THE LISTING DOCUMENTS FOR A COMPLETE LIST OF RISKS

- The Risk Factors below are a summary of the Risk Factors set out in the Listing Documents.

Market risks

Further Information

Market price of the Warrants may be affected by many factors

- The market price of the Warrants may be affected by different factors including but not limited to the level and volatility of the Hang Seng Index and the strike level of the Warrants.

You may lose your entire investment

- Changes in the price of the level of the index can be unpredictable, sudden and large, resulting in the index moving in a direction which will negatively impact upon the return on investment. If the level of the index reaches a level such that the Cash Settlement Amount at expiry is less than or equal to zero, you will lose your entire investment.

You are exposed to the credit risk of the Issuer

- The value of structured products may depend not only on the performance of the underlying(s), but also on the creditworthiness of the issuer, which may change during the term of the structured product. The investor is exposed to the risk of default of the issuer.
- The Warrants constitute direct, general and unsecured contractual obligations of the Issuer and of no other person, and rank on a parity with the Issuer's other unsecured contractual obligations and unsecured and unsubordinated debt other than indebtedness preferred by mandatory provisions of law. If the Issuer is unable to meet its obligations under the Warrants, you may lose your entire investment.
- As the Issuer is not incorporated in Singapore, any insolvency proceedings in respect of Issuer will be subject to foreign insolvency laws and procedures.

For further information on the rating of Bank Vontobel AG, please see the Listing Documents.

Liquidity risks

- The Issuer acting through its DMM may be the only market participant buying and selling the Warrants. Therefore, the secondary market for the Warrants may be limited and you may not be able to realise the value of the Warrants. Do note that the bid-ask spread increases with illiquidity.

Exchange Rate risks

- If the underlying or underlyings is/are denominated in a currency other than the product's reference currency, investors should bear in mind that this may involve risks due to fluctuating exchange rates and that the risk of loss does not only depend on the performance of the underlying(s) but also on any unfavourable performance of the other currency or currencies. This does not apply for currency-hedged products (quanto structure).]

Product Specific risks

Trading in the Warrants may be suspended

- If trading in the shares or securities relating to or constituting the Index is suspended, trading of options or futures relating to the Index on any options or futures exchanges is suspended, or options or futures generally on any options and/or futures exchanges on which options or futures relating to the Index are traded is suspended, or if the Index for whatever reason is not calculated, trading in the Warrants will be suspended for a similar period.

The value of certain index constituents may not be included in the closing level of the Index

- A level for the Index may be published by the Index Sponsor at a time when one or more shares comprised in the Index are not trading. If this occurs on a Valuation Date and there is no Market Disruption Event under the terms of the Warrants then the value of such shares will not be included in the closing level of the Index.

Issuer may make adjustments to the terms and conditions of the Warrants

- You should note that an investment in the Warrants involves valuation risks in relation to the Index. The level of the Index may vary over time by reference to various factors, including changes in computation or composition. Certain events relating to the Index may require or permit the Issuer to make certain adjustments or amendments to the Conditions. However, the Issuer is not required to make an adjustment for every event that affects the Index and if an event occurs which does not require the Issuer to adjust the Conditions, the market price of the Warrants and the return upon exercise of the Warrants may be affected.

F. Fees and Charges

WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

- Normal transaction and brokerage fees apply, similar to fees that you would pay for other transactions on SGX-ST.
-
